

Ismail Triki

Cloud Engineering Graduate | DevOps & DevSecOps

Marburg, Germany | ismail.triki.2020@gmail.com | +49 155 11402930 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Cloud Engineering graduate focused on DevOps, DevSecOps, and cloud-native infrastructure. Hands-on experience with Kubernetes, Linux, infrastructure as code, CI/CD automation, containerization, monitoring, and security automation. AWS Certified Cloud Practitioner and Nutanix NCP-MCI 6 certified, currently based in Marburg, Germany.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS, Azure, OpenStack, Proxmox VE, Linux, Networking

DevOps & Infrastructure as Code: Terraform, Ansible, AWX, GitHub Actions, CI/CD, Git, Bash

Containers & Orchestration: Docker, Kubernetes, k3s, containerd

DevSecOps & Observability: Wazuh, Suricata, TheHive, Cortex, Shuffle SOAR, OpenSearch, Sysmon, Prometheus, Grafana, MITRE ATT&CK

Programming: Python, Java, Spring Boot, JavaScript, Angular, SQL, REST APIs

CLOUD, DEVOPS & TECHNICAL EXPERIENCE

Working Student – IT & Cloud Support

June 2026 – Present

ars vivendi Seniorenresidenz Marburg GmbH

Marburg, Germany

- Support the migration of internal file storage and backup workflows from on-premises servers to AWS S3.
- Maintain and update the company website, supporting day-to-day digital operations.
- Assist with network and connectivity troubleshooting across the Marburg location.

Cloud Engineering Intern – DevSecOps & Security Automation

December 2025 – June 2026

Flexos Tunisie

Tunis, Tunisia

- Designed and deployed a cloud-native open-source SOC platform on a three-node k3s cluster hosted on Proxmox VE.
- Integrated Wazuh, Suricata, TheHive, Cortex, Shuffle SOAR, OpenSearch, Sysmon, and automated active-response workflows.
- Automated infrastructure and application deployment using Terraform, Ansible, AWX, and GitHub Actions.
- Developed MITRE ATT&CK-mapped detections for SSH brute force, network reconnaissance, and Windows account discovery, achieving end-to-end detection and containment in under four seconds for the SSH scenario.

Cloud & DevOps Intern – International Innovation Program

June 2025 – August 2025

PVG University / AIESEC

Pune, India

- Contributed to the technical design and validation of Vocallia, a cloud-based application prototype (APIs, backend services, speech-processing components), collaborating on architecture and documentation via Git-based workflows within an international, multicultural team.

Cloud, Data & DevOps Intern

June 2024 – July 2024

Devoteam

Ariana, Tunisia

- Contributed to infrastructure and operational-risk documentation for a banking client, covering service dependencies, availability, security considerations, and business-continuity analysis.

CLOUD, DEVOPS & DEVSECOPS PROJECTS

ESPRIT Cloud & DevOps Infrastructure

2024 – 2025

Academic Project

Ariana, Tunisia

- Built cloud infrastructure using OpenStack, Kubernetes, Terraform, Ansible, and Azure with Git-based CI/CD practices; containerized Spring Boot and Angular components.

Vocallia – Cloud-Based AI Voice Automation

2025

- Designed a modular cloud-based AI voice-automation concept integrating APIs, backend services, and speech processing; selected among the Top 10 projects at OSTX Tunisia 2025.

EDUCATION

Engineering Degree in Computer Science – Cloud Engineering

September 2021 – July 2026

ESPRIT

Ariana, Tunisia

Graduated with Highest Honors

Academic Exchange Semester

October 2025 – June 2026

Philipps-Universität Marburg

Marburg, Germany

CERTIFICATIONS

AWS Certified Cloud Practitioner – Amazon Web Services

Nutanix Certified Professional – Multicloud Infrastructure 6 (NCP-MCI 6) – Nutanix
